

# Interstate 35W construction

## Felix Street to Sycamore School Road

**Ramp changes and additional lanes are designed to improve traffic flow during rush hour on I-35W at I-20, eliminating weaving traffic.**

Construction will start in Summer 2006. As ramps are removed and rebuilt, temporary ramps will be built to accommodate motorists.

When construction is complete, access to I-20 from the Alta Mesa Boulevard area will be available by driving on the I-35W northbound frontage road to the I-20 Oak Grove Road or Campus Drive entrance ramp to I-20, or by driving north on Hemphill Street to I-20.

Access to the Alta Mesa Boulevard area from I-20 is available by exiting on Hemphill Street, Oak Grove Road or Campus Drive.

The I-35W southbound bridge at Sycamore School Road will have one lane added, and the I-35W bridge at Alta Mesa Boulevard will have one lane added in both the north and southbound directions.
